

# MAKE SURE YOU SPONSOR AND EXHIBIT AT THE EVENT ATTENDED BY TOP INDUSTRY PROFESSIONALS.

Join Missouri University of Science & Technology, RILEM and the National Ready Mixed Concrete Association by sponsoring and exhibiting at SCC 2016<sup>1</sup> and the 2016 International Concrete Sustainability Conference (2016 ICSC)<sup>2</sup>. For the first time ever, the international self-consolidating concrete (SCC) conference and the international concrete sustainability conference will be held concurrently, May 15th-18th, 2016, in Washington, DC.

This combined event promises to attract more attendees than ever before, providing outstanding opportunities to promote your products and services. By becoming a sponsor and exhibiting, you will enhance your visibility and demonstrate your dedication to the sustainability of the concrete industry and advancements in the

field of SCC. Your organization will be promoted in conference marketing materials, including conference program, website and signage.

Engineers, architects, public works officials, product manufacturers, researchers, academics, students and contractors are invited to attend and present their experiences and accomplishments in advancing self-consolidating concrete and sustainable concrete design, manufacturing and construction. Past conferences have attracted over 300 attendees, 50% from the concrete industry, including representatives from large multi-national corporations to smaller concrete producers. Over 150 experts from around the world will address the sustainable design, manufacture and construction of ready mixed concrete and

precast concrete, using both conventional concrete and SCC, as well as recent research findings and case studies pertaining to SCC and sustainability.

Invited keynote speakers include U.S. Secretary of Transportation, Honorable Anthony Foxx as well as other leading representatives from the engineering and construction community, including the designer of the world's tallest high-rise building under construction in Saudi Arabia.

## Reserve your space today by completing the attached application form!

- <sup>1</sup> SCC 2016 combines the 8<sup>th</sup> International RILEM Symposium on Self-Compacting Concrete and 6<sup>th</sup> North American Conference on Design and Use of Self-Consolidating Concrete.
- <sup>2</sup> 11<sup>th</sup> annual NRMCA International Concrete Sustainability Conference.
